

Feedback mechanism

The college maintains several procedures including diverse parameters to obtain the feedback from different stakeholders of the institution. Besides students, the administration receives teachers' feedback on curriculum and infrastructures time to time. At the end of each session, the Principal joins meeting with the faculties and staffs for framing college curriculum and to facilitate amenities as per the feedback received. To obtain students' response, a feedback form has been developed including crucial parameters on teaching, syllabus, future planning, library facility etc. and circulated online via Google form. Students were given full comfort to put forward their comments as they find the parameters through the prism of their logic. Interactive session between faculties and students at various departmental levels are regular norms of the college to understand what the students try to convey with their feedback. Career guidance, health & hygiene advices, academic motivation and keeping the students updated with the recent developments in their respective fields are usual practices made on the basis of the feedback receives. The feedback from receives at the end of academic session are analysed qualitatively and quantitatively to fetch a clear picture of the scenario. Students' responses on various parameters are shown below graphically.

1. Questionnaire on the quality of the syllabus-

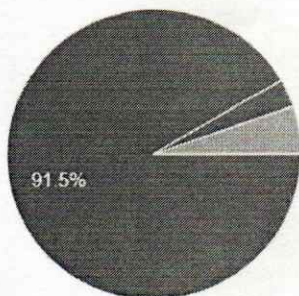

2. Questionnaire on the portion of syllabus completed

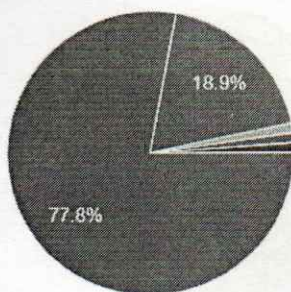

Shyama
Principal
DCB Girls' College
